

DISCOVERING INDIA WEEK
2021-2022

‘The real voyage of discovery consists not in seeking new landscapes, but in having new eyes.’

Dear Parent,

India is the world's largest democracy, the seventh largest nation and home to more than 1.3 billion people; but the appreciation for our lovely country cannot be limited to mere numbers. It's a land of diversity- from the deserts of Rajasthan, to the beautiful beaches of Goa, to the Keralan tea plantations and the metropolitan cities of Mumbai and Kolkata, India is indeed a fascinating place.

To familiarise our young students with our country's rich cultural tapestry and make them feel proud of the land they live in, Lotus Valley International School, Noida Extension has organised '**Discovering India Week**' from **09.08.21 to 13.08.21**.

To celebrate the myriad hues of the country there will be a plethora of events organised during this week. History through virtual walks, dance performances, cuisines, customs, traditions and much more would be celebrated during the week.

We are looking forward to the students participating in this exciting and enriching event that will bring them a step closer to the country's varied culture and heritage.

Warm regards
Indu Yadav
Principal
