'A skilled photographer is blessed with aesthetic sensibility, emotional resonance and a gift for expression'.

The School Clubs enhance learning among the students through exploration and experimentation. Every activity carried out during the club periods encourages students to acquire new skills and perceive the ordinary through a different lens to make it an extraordinary expression.

As part of the hands-on learning experience, the school has planned a field trip to Humayun's Tomb, New Delhi for the members of the Photography Club. We are certain that this trip will be exciting and experiential for the young budding photographers. The details of the same are given below:
